SHOUT-OUT: I recruited a website design team who came highly recommended to me. But I want to test them out. I'm doing 5 free website designs for 5 different business owners. Do you know anyone who needs a new website designed or redesigned for free? Please share this post or PM me. Thank you!

Hey everyone, there's a website design team that I want to try. They came highly recommended. So this is what I want to do, I'm looking for 5 different businesses owners who could use a fresh website. I'll do it for free. This will give me a chance to test out this fulfillment team and build my portfolio. Please share this post with anyone you think will be interested or if you think they know someone who will be interested. And have them send me a Private Message. Thanks so much! I appreciate it!

Help! Please let me know if you know a business owner who needs a new website. Maybe their website is old and vulnerable to hackers, or just needs a fresh look. I'm looking for 5, because I have recruited a website design team and I need to build my portfolio asap. Please share this post. I make the sites for free, but know that they may be featured and used as examples to bring in new business. Please PM me if you or someone you know are interested.
